Department of Information Science & Engineering

Report of Student Development Program on Software Testing conducted 9-10 Feb 2018

Organized by Department of Information Science and Engineering

Student Development Program on Software Testing conducted 9-10 Feb 2018 was conducted for 6th semester students of Information Science and Engineering at ISE Seminar Hall.

The program included the introduction to topics on Software Testing (SDLC and STLC) by Prof. Shagoufta Taskeen and extended to intermediate and complex levels of concepts which offered a unique platform to students in understanding the Testing concepts and sharpen their testing skills by Ms. Sumathi.

The training included extensive hands-on sessions emphasizing the demonstration, application of techniques and skills on automated testing conducted by the Trainer. This training teaches the students the fast and efficient way to write complex test cases, defect tracking and reporting. The Training focuses to develop a strong working knowledge of how to use Automated testing tools.

The Program enabled the students to gain insight into the world of automation testing tools like selenium and JIRA. All the students had interactive and hands on sessions.

Resource person	Designation	Organization
Ms.Sumathi H S	Senior software Tester	KPMG Global services
